GREEN'S
Part of the Heat Exchange Group

INDUSTRIAL & MARINE BOILER SERVICES

We provide services that ensure our customers' economisers and waste heat recovery systems keep working as efficiently as possible for their entire lifetime. From pro-active inspections and surveys to reactive repairs and spares supply we have a reputation for providing fast and reliable support.

Spares:

We can supply and commission parts for virtually any make and model of marine and land boiler or burner and their ancillary equipment. We offer express delivery services to avoid unnecessary downtime.

Products we can supply include:

- Boiler pressure parts
- Boiler spares
- Finned tubes
- Burner spares (pressure jet, rotary cup or steam atomised)
- Valves and actuators
- Controls and automation

Repairs & installation:

We repair and refurbish virtually any make and model of marine and land boiler or burner to maximise efficiency and minimise downtime. Our experienced and highly trained team is available for worldwide mobilisation 365 days of the year to meet our customers' needs.

Maintenance & service:

Proactive routine maintenance and servicing of boilers and waste heat recovery systems ensures they perform at optimum levels for their whole lifecycle. Our expert team can work on your systems anywhere in the world at times and locations to suit you, for example during outages or when vessels are moored, to minimise disruption to your business.

Inspections & surveys:

Inspections and surveys provided by our dedicated, highly qualified team enable organisations to identify current and potential problems with their boilers and ancillary equipment so that they can be addressed avoiding unnecessary costs or outages.

Potential problems found and associated recommendations are made as part of a detailed technical report so that plans can be put in place, unnecessary cost and downtime is kept to a minimum and boiler life is extended. We offer systematic boiler inspections, asset integrity assessments, failure analysis, chemical cleaning, repair and a variety of other services that can be tailored to meet specific needs.

Our customers include:

- Damen Shiprepair Brest
- Kuwait Oil Tanker Company (KOTC)
- John Samonas
- Carnival UK
- James Cropper
- Viridor
- Interserve
- British Sugar
- Suez
- Engie

Green's is part of Heat Exchange Group and is one of Europe's largest providers of boiler equipment and services including repairs, inspections, installation and spares. We help companies in the energy, industrial and marine sectors to recover waste heat efficiently, maximise energy usage and cut costs by designing and manufacturing products from our certificated UK factory for installation worldwide.

Information about our other products and services including:

- Design engineering
- Economiser and flue gas coolers
- High performance boiler tube bending machine
- Spares
- Steel fabrication
- Waste heat and exhaust gas boilers
